Q9 Please describe why you wish to be on Council (Statement of intent)

I would like to bring new wind of freedom and anti-colonialism in the Council. Together with my deep knowledge of the context of developing, and in-transition countries, including and not limited of its civil societies. I would increase the role of authentic national, and local civil society organizations forming strong and responsible civil society instead of excessive international intermediaries. I would offer new vision of global networking of free and self-sufficient strong professionals working in multidisciplinary context towards making this Globe safe and fit for any child. I would bring the voice of still invisible and unheard on global decision-making level - children, parents, and front-line professionals working directly to our final beneficiaries. I would facilitate access of global Studies to children, and families to gather truthful and reliable data, could be used as the basis to form adequate local, national, and global agenda, instead of current "approximate agenda, and strategy" which doesn't fit to 4/5 of the Mankind. Correct measures to prevent and respond child abuse and neglect might be elaborated only and then, when correct, truthful, and reliable data will be gathered. To reach this objective, we have to cut all intermediaries filtering, interpreting, and wrongly applying false data gathered, often - in their personal or corporative interests, lying far from genuine best interest of global children. Exactly what we need as the strong international family is to take a very responsible decision - to reject old "nice-looking" paradigm with numerous-level hierarchy of intermediaries, and solve this problem with new minds, and new tools to be offered by new generation of leaders, I belong to.

Q10 What special skill sets, expertise, relationships, etc do you plan to bring to Council if elected that you see as benefiting ISPCAN?

1. My talent and managerial skills, evident in exclusively successful management of NGO, set up in extremely unfriendly surrounding of the last European dictatorship, grown up from under-grassroots to globally-visible champion.
2. The strongest vision of winner, my passion, and energy, capacity to find right solution and reach right results under conditions of lack of resources or extremely limited resources at our disposal.
3. Skills in forming adequate global, national, and local agenda, and strategy to reach every child, and every family on this Earth, acting towards his/her best interest.
4. Sincerity, respect, and sense of teamwork, including those under very sensitive circumstances.
5. If we talk about relationships, there is no any person on this Globe which impossible to reach, talk to, and assure in right things. I do not believe in people's temporary roles, and I do not set on stake such roles. Its short term, its use/misuse of people, and its being often abusive for them when the role is changed. I believe in people, and prefer to build sincere and long-term relations to those of them who think the same. It is right approach, and it works, ever.
